Certified for Safety

- We have tested to UL/EN/IEC specifications for enhanced patient safety
- Environmentally clean: RoHS, WEEE and EU (94/62/EC) packaging compliant
- Extremely easy to clean design promotes infection control

StyleView Powered Carts

Moving at maximum efficiency.

We listened! Point-of-care carts that deliver caregiver efficiency, patient safety and quality care

The power system has an unprecedented two-year warranty* which leapfrogs over warranties offered with competitive carts. Ergotron's upgraded StyleLink software enhances power system management, helping extend battery life. For patient and caregiver safety, the powered carts and power system are UL and EN 60601-1 certified. A programmable, autolock drawer facilitates medication delivery. StyleView bridges point-of-care computing and bedside barcoding, reducing healthcare costs and improving patient care.

Improve viewing comfort and enhance productivity through StyleView's expansive range of effortless height adjustment. 51 cm sit-to-stand motion is combined with an additional 13 cm independent monitor height adjustment and 25° screen tilt, which benefits all users, including those who wear progressive lenses. The keyboard tray provides up to 12° of negative tilt—recommended by ergonomists for the proper typing position. This reduces the risk of repetitive stress injuries. An enclosed storage area makes it easy to manage cables.

1. 13 cm (5″), independent monitor height adjustment increases comfort and productivity for personalized viewing, including for those wearing progressive lenses. Rotates from portrait to landscape mode. Compatible with Tablet PCs (LCD carts only)
2. Comfortable data entry, sitting or standing. Lift Range: LCD/worksurface adjust 51 cm (20″) in tandem; LCD adjusts 13 cm (5″) independently; maximum LCD height adjustment 63 cm (25″)
3. Patented CF motion technology provides fluid, one-touch height adjustment
4. Secure, autolock drawer controlled by electronic keypad facilitates medication delivery—enhancing caregiver efficiency and patient safety. Removable cassette is configured with six bins (each with a clear lid and ID label)
5. Barcode scanner holder provides easy access to hand-held scanner
6. Wrists remain in a neutral position during data entry with negative-tilt keyboard tray—avoid repetitive-stress injuries and increase comfort and productivity
7. Expansive cable management storage area
8. Easier mousing and typing with rigid keyboard platform
9. Long-life power performance supported with an industry-leading two-year warranty* on power system. Five-year warranty on cart
10. Upgraded StyleLink™ software improves power system management tools, helping extend the life of the battery and reduce costs. This version includes email alerts for battery replacement and charge remaining. Windows Vista™ compatible (powered carts only)
11. Easy-to-clean external 3 m (10-foot) coiled cord included with powered carts
12. Easy-to-use cart comes fully assembled
